

PHYSICAL GEOLOGY COURSE SYLLABUS

Professor: Phil Farquharson, "Geology Guy"

E-mail address: philfarq@gmail.com

Message phone: (none – please use E-mail)

"Office" Hours: Sunday evenings, 7-9 PM, (*or by request*) using Zoom  (*video conferencing*) or E-mail

Lecture Hours: 3

Prerequisites (Advisory): ENGL 048 and ENGL 049, each with a grade of "C" or better, or equivalent, or Assessment Skill Levels R5/W5.

Web Site: <http://geology100online.geology-guy.com/> (*instructor's personal, "unofficial" website*)

Blackboard: <https://sdccd.blackboard.com/> (*where you will submit all of your work*)

MasteringGeology Study Area: All sorts of Visualizations, Practice Quizzes, even Flash Cards & Glossary! (through Bb)

Textbook (Recommended) and MasteringGeology (Required)

- **Earth: An Introduction to Physical Geology**, Tarbuck, Lutgens & Tasa, Twelfth Edition, Pearson. ISBN-13: 978-0-13-429916-7 - includes Modified **MasteringGeology** (purchased at the **Miramar** Bookstore or through Blackboard **only**)
- *IF* you absolutely **MUST** have a **PAPER** edition of the text (I understand, believe me!), you should buy the Modified MasteringGeology through Blackboard, then buy, rent or borrow the 12th or 11th edition of **Earth: An Introduction to Physical Geology** from the usual online sources. The ISBN's for those books alone: 12th edition 978-0134074252; 11th edition 978-0321814067.

Important information regarding MyLab and MasteringGeology

DO NOT purchase an access code for **MasteringGeology** anywhere other than the **Miramar** Bookstore or through our Blackboard site! Please see instructions on the "unofficial" website (<http://geology100online.geology-guy.com/text-specs.html>), also in Blackboard.

Teaching Philosophy

As odd as this may sound, I don't consider myself a **teacher**. I can't teach you anything. My goal is to encourage you to **learn**. Picture me in wearing a pleated skirt, a sweater with a letter on the front (**G**, as in **Geology!**) and pom-poms in hands, cheering you on: "Go! Fight! Learn tonight!" I don't **give** grades. I'm merely the scorekeeper. You are responsible for your success. I have been considering myself a **mentor** since a supervisor who hired me some time ago pointed out that all of the references that he checked said that mentoring was part of my persona. Hence, I have adopted that label for myself: **Earth Sciences Mentor**. Note that geology is a highly interdisciplinary field of study. Lesson 1 - it's all one thing!

MasteringGeology Homework - tutorials and quizzes online

Most of your learning will be completed in MasteringGeology, accessed through Blackboard. There will also be a mandatory quiz in Blackboard based on this syllabus, as well as a test on the first student learning outcome (SLO) in this syllabus.

About MasteringGeology

For each subject (chapter) we cover, there will be a homework assignment for you to complete, based on your reading and the ancillary materials (short videos, narrated PowerPoints and animations, virtual field trips via light airplanes and drones, etc.) to be found the assignments themselves. The total points for each assignment are shown in the right-hand column of the schedule below.

Writing Assignments / Participating in Discussion Forums:

In addition to the Mastering "homework" assignments, there will be writing assignments requiring synthesis of the appropriate material. They may be supplanted by discussion topics depending on the whims of "Mother Nature" - natural disasters during our course which require our immediate attention.

Grading Response Times:

While I can't say that I'm available 24 hours a day, 7 days a week (24/7), I should be able to have your assignments graded within 24 hours, as long as I have Internet access.

Important Stuff:

- ***If you don't log into Blackboard for an extended period of time (for instance, more than a week), I may become concerned about your well-being and drop you from the course. (after notifying you, of course)***
- Online classes in general require a great deal of self-discipline. You are responsible for your own success.
- Students who remain enrolled in a class beyond the published withdrawal deadline, as stated in the class schedule, will receive an evaluative letter grade in this class.
- The Family Educational Rights & Privacy Act (FERPA) prohibits the release of any student educational information to another individual, including family members, without the student's written consent.

Late Work Policy:

NO points will be deducted for late work! **Please** try not to fall behind, but I realize that life is constantly throwing us curve balls. I want to make our class as stress-free an environment as possible - I want you to learn!

Important Dates:

- February 9: Last day to add. Last day to drop with no "W" recorded.
- March 5: Pass/no pass deadline.
- April 13: Last day to withdraw without an evaluative grade.
- May 26: End of Semester.

Grades

Grade breakdown: A = 90-100%, B 80-89%, C 68-79%, D = 55-67%, F = < 54%. Course grades are calculated on:

Mastering Assignments	→	500.5 points (<i>may change as the semester develops</i>)
Discussion/writing assignments	→	400 points (<i>probably more, depends on world geological events</i>)
Syllabus Acknowledgement	→	20 points
SLO Quiz	→	10 points

Total: 930.5 points

Tentative Optional Field Trips & Dates (details will be in Blackboard)

- Miramar Lake / Mt. Woodson / Tourmaline Beach / Peninsular Ranges Batholith

Student Learning Outcomes ("SLO's")

At the end of this course, the successful student will be able to:

- ***Differentiate among the 3 major types of plate boundaries and recognize their characteristic geologic features.***
- Identify common rock-forming minerals by their diagnostic properties.
- classify rock strata, faults and intrusions by age, using relative dating techniques.

Geology 100 Schedule

Month	Day	Chapt	Subject	<i>Milestones (release dates, mostly)</i>
January	29		Week 1	
			Class Introduction	Syllabus Quiz (<i>in Bb</i>) (20 points, mandatory)/SLO Pre-quiz (<i>optional</i>)
		1	Introduction to Geology	Chapter 1 homework (32.5 points)
February	5		Week 2	
		2	Plate Tectonics	Chapter 2 h/w (49 points)
February	12		Week 3	
		3	Matter and Minerals	Chapter 3 h/w (20 points)
February	19		Week 4	
		4	Igneous Rocks	Chapter 4 h/w (21 points)
February	26		Week 5	
		5	Volcanic Activity	Chapter 5 h/w (33 points)
March	5		Week 6	<u>Plate Tectonics / Volcanoes</u> assignment (<i>in Bb</i>) (100 points)
		6, 7	Weathering, Sedimentary Rocks	Chapters 6&7 h/w (27.5 points)
March	12		Week 7	
		8	Metamorphic Rocks	Chapter 8 h/w (19 points)
March	19		Week 8	
		9	Geologic Time	Chapter 9 h/w (21 points)
March	26-31		<i>Spring Break</i>	<i>No "class"</i>
April	2		Week 9	
		10	Crustal Deformation	Chapter 10 h/w (27 points)
		11	Earthquakes	Chapter 11 h/w (27 points)
		12-14	Earth Interior/Ocean Basins/Mountains	Chapters 12,13,14 h/w (47 points)
				<u>Earthquakes</u> assignment (<i>in Bb</i>) (100 points)
April	9		Week 10	
		15	Mass Wasting	Chapter 15 h/w (15.5 points)
April	16		Week 11	
		16, 17	Running Water, Groundwater	Chapters 16&17 h/w (53 points)
April	23		Week 12	
		18	Glaciers	Chapter 18 h/w (19 points)
		19	Deserts	Chapter 19 h/w (21 points)
		20	Shorelines	Chapter 20 h/w (31 points)
April	30		Week 13	
		21, 23	Global Climate Change / Energy	Chapter 21, 23 Homework (37 pts.)
May	7-26		Weeks 14-16	SLO Quiz (10 points)
			Wrap it up!	<u>Water and Climate Change</u> assignment (<i>in Bb</i>) (200 points)
May	26		11:59 PM in Blackboard/Mastering	<i>All work due</i>

Important Note about the Schedule:

This schedule is tentative and may be changed or modified by the instructor at any time during the semester. Students will be notified in a timely basis if changes are made. The latest version will always be found in Blackboard and on the "unofficial" web site at <http://geology100online.geology-guy.com>.

"Boilerplate" section - quasi-legal stuff that I'm required to insert:

"Netiquette" - It's so nice to be nice!

The San Diego Community College District ("District") has firm guidelines on behavior while in the online learning environment, which can be found at <http://www.sdccdonline.net/students/resources/NetiquetteGuidelines.pdf> - you are responsible for knowing these simple rules for getting along with others.

Course Description (official)

"Physical Geology is the science of the Earth, the materials of which it is composed, and the processes that are acting upon it. Topics include plate tectonics and earth's internal structure, the formation and classification of minerals and rocks, geologic structures, and geologic processes of the earth's surface and subsurface. This course is intended for students with a general interest in the geological sciences as well as those majoring in geology, earth science, or geological engineering. Associate Degree Credit & transfer to CSU. CSU General Education. IGETC. UC Transfer Course List."

ACADEMIC ACCOMMODATION (Policy 3105) and Miramar DSPS

The District is committed to the fundamental principles of nondiscrimination and accommodation in academic programs and to all provisions of Sections 504 and 508 of the Rehabilitation Act of 1973 and the Americans with Disabilities Act of 1990. District Policy 3105 provides for academic adjustments for students with disabilities. **DSPS** (Disability Support Programs Services) at Miramar College offers a wide range of services for students with verified disabilities. If you have a learning or physical disability which requires special accommodations for classroom participation and/or examinations, please let me (the instructor) know on the first day of class and notify the DSPS office on campus in room K-204, by email: miradsps@sdccd.edu or by phone, (619) 388-7312.

Academic Misconduct: (i.e., PLAGIARISM!)

Section 41301 of Title V of the California Code of Regulations defines academic misconduct as "cheating or plagiarism in connection with an academic program at a campus." Examples of cheating include using notes or copying others' work during an exam, using old exams and study guides to prepare for an exam, and falsifying data or records for an exercise. Examples of plagiarism include copying other students' answers or, when working in collaborative groups, not stating answers in your own words, based on your own understanding. For more information about plagiarism, please see the following:

http://www.sdccdonline.net/students/resources/College_Policies.pdf.

Unlawful Harassment or Discrimination Complaint Other than Title IX

San Diego City, Mesa and Miramar Colleges are committed to providing an academic environment free of unlawful harassment and unlawful discrimination. Board Policy 3100 defines verbal, physical, visual or written, environmental and harassment and other forms of harassment on campus, and sets forth a procedure for the investigation and resolution of complaints of harassment by or against any staff, or faculty member, or student within the District.

SUSTAINABILITY ON CAMPUS (and in life!)

Miramar College is committed to sustainability on campus and in our classrooms, as reflected in the SDCCD Sustainability Proclamation. To minimize the use of paper resources, please consider when a document may be shared digitally rather than printed. When a document must be printed, decrease the default setting on your margins to at least 0.8" and print on both sides of the paper. Please utilize the campus and classroom recycle bins for all recyclable materials: plastic bottles and containers (#1-7), cans, paper and cardboard. You are encouraged to bring reusable drink containers to school rather than disposable plastic bottles. Thank you for considering your role in keeping the campus environment clean, and conserving resources in your academic life.
